

Changes to Printing PDF Reports Using X2 Aspen Effective June 6, 2011

FRPS Tech Support Center – (508) 675-8402

Due to a change to enhance security of reports, when printing a report in X2 Aspen, you now need to click the ADOBE PRINTER ICON.

If you are using one of the newer versions of Adobe Reader, hover your mouse over the report and you will see a black bar with menu options (see below):

Click the printer icon to print the report. *DO NOT* use “File > Print” from the Firefox or Internet Explorer Menu (this will cause a blank page to be printed)

Click the printer icon to print the report. **DO NOT** use “File > Print” from the Firefox or Internet Explorer Menu (this will cause a blank page to be printed)

If you are using Adobe Reader 9.0, click the “Print Icon” in the upper left hand corner of the window (see below):
