

To the Fall River Community,

Durfee Student Government is a student run organization that is responsible for organizing various activities to help get students more involved; by organizing these events Durfee Student Government's purpose is to give back to the community and school in creative and valuable ways. Members of Student Government try to empower students to cherish their Durfee experience.

As leaders of the school, members of Student Government, always try to represent the Voices of the student population. Members of Student Government strive to be models of the acronym P.R.I.D.E, Purpose, Responsibly, Innovation, Diligence and Empowerment. Not only do members live by this motto, but also try to inspire fellow students to do the same. Student Government gives back to the community and school by hosting concerts, shows, fundraising, charitable drives and the pep rally. These proceeds from the events often go to global and local charities.

I can honestly say I love Durfee and I am proud to call myself a Durfee Hilltopper. My proudest moment is when members of the community realize the hard work and diligence that Student Government puts toward organizing and creating events. There is truly no better feeling than hearing that the community is proud of Durfee High School as a result of Student Government's accomplishments.

As Student Body President I hope to execute many innovative ideas and fundraisers that can help students become more involved than ever. I hope I can leave my mark on Durfee High School and help to create a more affective Student Government. As my time at Durfee comes to an end, I believe that I can help to foster a more united Durfee Community. I know I will do everything in my power to help make this year the best year Durfee has ever seen!

Sincerely,
Brogan Murphy
Student Body President
