Meet Lincoln
Half a heart, twice the fight

Lincoln is a 21-month-old resident of Boston. He born with a rare congenital heart defect, hypoplastic left heart syndrome, HLHS. Diagnosed at 200 days old, he was rushed to Boston Children's Hospital, where the highly specialized team of doctors and surgeons saved his life.

He lives with just half of a heart, which would not be possible without Boston Children's Hospital. Today, Lincoln is thriving and will undergo another open heart surgery in the summer of 2018.

Lincoln's father, Alan Rezendes, and the running the 2018 Boston Marathon for the Miles for Miracles team to help raise funds in a low Boston Children's Hospital to continue their commitment to innovative care. **Please help my family give back to Boston Children's Hospital by donating today.**

Defying the odds

Lincoln is an amazing toddler who inspires all that meet him. He has a can-do attitude and doesn't let his condition limit or define him. He loves playing with his brother and sister and lives life to the fullest.

Dresses to Dreams

at Bentley University

February 17th, 2018

**Empowering young women today to become
the confident, inspiring women of tomorrow.**

Prom is more than just looking pretty, it's about feeling pretty. Dresses to dreams strives to provide teenage girls with the opportunity to reach their full potential through a valuable one-day event with life coaching, mentorships, and self-confidence seminars. We see prom as a stepping stone in the process of creating confident, inspirational women. This event is filled with structured workshops with the purpose to empower. Additional workshops include a prom hair and makeup tutorial, and of course, a prom dress workshop where the girls have the opportunity to try on a variety of dresses to take one home for their special night.
