Computer-based test

Your Child's Achievement Level: **Exceeding Expectations**

Your Child's Score: **541**

 In the figure above, the triangle indicates your child's score on the test. The gray bar shows the range of likely scores your child would receive if he or she took the test multiple times.

How your child performed compared to the school, district, and state

| Your Child's Score | Average Score | | |
|--------------------|---------------|------------|------------|
| | School | District | State |
| 541 | 485 | 502 | 515 |
