Dear Parents and Community Members,

We are seeking your input as we near completion of three new elementary schools, the Slade, Letourneau, and Small Schools. These buildings will house more than 1800 students and will provide our community the opportunity to:

- * optimize the use of 21st century instructional space
- * analyze the current student assignment areas
- * limit distances for transportation
- * provide increased instructional opportunities to students
- * increase the use of modern technology
- * community use of schools

Please join us on any of the dates listed (at left) to learn about our new schools and how other school buildings will be effected. We need your help to make the transition a good one for our students and their families.

Thank you,

The Fall River Public Schools Reconfiguration Committee
