2020-2021 Goals

- Based upon our 2019 spring data our students are 35% proficient on our ELA
 assessments (DIBELS (K-2) and MCAS Data). Our goal is to increase this overall
 level of proficiency by 10% to 38.5% proficiency on these same assessments for
 2020.
- 2. Based upon our 2019 spring data our students are 46% proficient on our Mathematics assessments (Math Add-Vantage (K-2) and MCAS Data). Our goal is to increase this overall level of proficiency by 10%, to 50.6% proficiency on these same assessments for 2020.
- 3. Based upon our 2019 spring data our students are 21% proficient on our Science assessments (MCAS Data). Our goal is to increase this overall level of proficiency by 10% to 23.1 % proficiency on these same assessments for 2020.

MEMORANDUM

TO: Matthew H. Malone, Ph.D., Superintendent of Schools

FROM: Eric Bradley, Principal, John J. Doran Community School

DATE: January 21st, 2020

RE: Rationale for New Positions in FY21 School Budget

K-5 Interventionist: At the Doran School we currently have a K-8 Intervention/Enrichment model where every student in the school receives 30 minutes per day of ELA intervention/enrichment and 30 minutes per day of math intervention/enrichment. In order to make this schedule work we utilize our general education classroom instructional paras to provide some of these intervention/enrichment services. With the addition of another K-5 Interventionist we will be able to further close achievement gaps by having more licensed teachers working irectly with some of our neediest students in small groups on a daily basis. This addition will also allow us to better utilize our instructional paraprofessionals as in-classroom supports for our younger learners.

5th/6th Grade Science Teacher: Currently, we have one science teacher who teaches science to all students in 6th, 7th, and 8th grades. With the addition of this second science teacher we would adjust our master schedule so that one science teacher teaches 7th and 8th grades and the other teaches 5th and 6th grades. The remaining time in each teacher's schedule would be used to provide small group science instruction across 5th through 8th grades, as well as support the growth of Project Lead the Way Launch in grades K-3. Like many schools in the Commonwealth, our 5th and 8th grade science scores are not what we want them to be, not just in overall proficiency but also in subgroup growth according to the new accountability measures. An additional science teacher would go a long way in improving our science instruction and achievement for our students.

0.5 FTE Special Education Inclusion Teacher: We currently have 5 special education inclusion teachers that serve our students in grades K-8 who have special ed. services. While our special education caseload numbers are within the normal limits, due to the breadth of grades that we have at the Doran School we have found it to be a significant challenge to meet students' B Grid and C Grid minutes across the school within the confines of our master schedule. Additionally, 56% of the students in our lowest 25% are students with disabilities. The addition of this position would further assist us in targeting this important sub-group through more direct service to one of our neediest student groups, thereby moving many of these students out of our lowest 25% and improving overall growth and achievement levels for our students with disabilities.

SEL Paraprofessional: Currently, we have one general education paraprofessional assigned to each of our indergarten classrooms. However, we have seen a pattern over the past few years that when some of our indergarteners transition to 1st grade, where there is not a designated paraprofessional to support the 1st grade teacher and students, some students' begin to struggle more both behaviorally and academically. The addition of this SEL Paraprofessional would target this particular gap to provide a more fluid transition from Kindergarten to 1st grade for some of our neediest students.
